Fill in the wheel to show how you feel. Start at the middle and move out to the outside ring. For example, if you leave a section blank, it means that you **don't** feel safe, healthy, active etc. If you fill in just one section it means that you only feel **a little bit** safe, healthy, active etc. If you fill in all five sections it means that you feel **very** safe, health, active etc.

**How safe, healthy, active, nurtured, achieving, respected, responsible or included do you feel when taking part in the youth activity, at school or at home?**

Please give examples of what you do or why you feel this way... (continue over the page if you need more space).
